

五年级上册英语知识点苏教版

The knowledge points for the fifth grade of the first volume of English in the Sujo version mainly include the following:

1. Basic greetings and self-introduction: Students should be able to greet others and introduce themselves in English, such as "Hello, my name is..." and "Nice to meet you."

2. Numbers and time: Students need to learn how to count in English and tell the time, including both the hour and minute.

3. Daily activities: This includes learning the names of different daily activities and being able to talk about their own daily routines in English.

4. Family members: Students should learn the English words for different family members, such as "mother," "father," "sister," and "brother."

5. Describing objects: Students will learn basic adjectives to describe the appearance and characteristics of objects in English.

6. Food and drinks: This includes learning the names of different foods and drinks, as well as being able to express their preferences.

7. Weather: Students should be able to understand and talk about different types of weather in English, such as "sunny," "rainy," and "windy."

8. Asking for and giving directions: Students should learn how to ask for and give directions in English, as well as understand basic prepositions of place.

9. Classroom objects: This includes learning the names of different objects in the classroom and being able to follow simple instructions in English.

These knowledge points cover a wide range of basic English language skills, laying the foundation for further learning and communication in English.
