

阅读短文，从方框中选择适当的词并用其正确的形式填空（每词限用一次）。

create around challenge well teach free smart cost solve it

DeepSeek is a new AI company from China. Recently, it has become very popular. On 20th January, 2025, DeepSeek introduced two new models. These models are very ____1____ and can do many things. One of the models, called DeepSeek-R1-Zero, is very special. It can ____2____ maths problems, write simple code, and chat like humans. What's special? It learns by practising, not just reading examples.

DeepSeek-R1-Zero learns like students that do homework. Other AI systems need many examples to learn, but R1 improves by ____3____. "It's like ____4____ a bird to fly," said an engineer. "The more it tries, the ____5____ it works."

The AI is ____6____ for schools and small businesses. A teacher in Vietnam said, "Now even villagers can use AI without worrying about ____7____."

But there are ____8____. AI sometimes makes mistakes in languages like German or Russian. The team is trying to fix this. "We want AI to help everyone ____9____ the world," they said.

DeepSeek's success shows that China is getting better at making AI. It is changing the world of AI. It tells us that great things come from ____10____ and hard work, not just money.
