

6 . Maths is not easy. But I think it is very interesting and I want to learn it well. My sister Cindy is good at it, so I often ask her for help.

“Can you help me with my maths?” I ask my sister.

“Sure. First, I have some maths questions for you about our shopping trip to Meimei Clothes Store today,” says Cindy.

“What are they?” I ask.

“Listen!” Cindy says. “A pair of socks is 8 yuan. How much do you need to pay for (支付) five pairs?”

“So easy!” I say. “40 *yuan*. ”

“Good!” Cindy says. “In the store, a pair of shorts is 40 *yuan* of all colours. A pair of red cloth shoes (布鞋) is 79 *yuan* and a yellow or a white T-shirt is 84 *yuan*. How much do you need to pay for two pairs of shorts and a T-shirt?”

“164 *yuan*, ” I say.

“You’ re right!” Cindy says. “The store sells one green coat for 239 *yuan*. But two green coats are only 400 *yuan*. How much are four coats?”

“Let me think. Are they 800 *yuan*?” I ask.

“Yes, ” says Cindy.

“Your maths questions are really fun,” I say to my sister. “With your help, I think I can do well in my maths.”

1. (中考新考法·推断文章论述方式) How does Cindy help the writer to learn maths?

A. By giving pictures. B. By telling stories. C. By asking questions. D. By using sayings.

2. (中考新考法·细节匹配) Match (匹配) the clothes with their prices.

①Three green pairs of shorts and a white T-shirt

②Two green coats and two yellow T-shirts

③Two pairs of red cloth shoes

a. 158 *yuan* b. 204 *yuan* c. 568 *yuan*

A. ①-c; ②-b; ③-a

B. ①-c; ②-a; ③-b

C. ①-b; ②-c; ③-a

D. ①-b; ②-a; ③-c

3. What does the writer think of her sister's maths questions?

A. Interesting.

B. Difficult.

C. Boring.

D. Easy.

任务2:

4. 再次阅读以上短文，完成概要（每空不限一词）

Linda thinks maths is difficult but fun and she wants to \_\_\_\_\_. So she often asks her sister Cindy for help. Cindy helps Linda with \_\_\_\_\_ about their shopping trip to Meimei Clothes Store. Linda enjoys the maths questions and \_\_\_\_\_. She thanks her sister and believes (相信) she can do well with her help.

**整体分析：** 文章大意：本文是一篇记叙文。主要讲述了Linda向姐姐Cindy请教数学，Cindy运用购物知识来帮助妹妹学习的事情。

可沿着虚线剪开

## 参考答案与解析

**答案：** 1. C; 2. D; 3. A

**解析：**

1. Cindy帮助作者学习数学的方式是通过提问数学题，明确答案是C。

2. 通过计算所给的衣服价格，①三条绿色短裤和一件白色T恤，②两件绿色外套和两件黄色T恤，③两双红布鞋，得出的正确匹配是选项D。

3. 作者觉得她妹妹Cindy的数学问题很有趣，答案选A。

**考点总结：** 通过提问帮助学习数学；理解衣物价格计算；感知文章中人物对问题的看法
